

Aegis 400

4K Ultra HD Body Cam

The MyGekoGear Aegis 400 Body Cam is the best wearable security tech to take with you anywhere, recording in up to 4K Ultra HD quality for crystal clear video. Utilizing 140° wide-angle lens and 128GB of built-in memory, it can record for up to 10 hours of continuous recording. Afterwards, easily review your recorded footage on the 2" LCD screen or transfer your videos to a PC/Mac with the supplied USB-C cable. Equipped with infrared night vision and LED flashlight, record up to 10 feet in front of you in total darkness. With unmatched durability and IP67 water proofing, it can withstand even the harshest weather conditions. Perfect to use professionally for security, police officers and other Military/LEO personnel.

Ultra HD 4K Resolution

4K

The Aegis 400 Body Cam records at 4K Ultra HD with a 140° wide-angle lens to capture all the important details in the field and provide key evidence when you need it the most.

Infrared Night Vision

Equipped with high intensity infrared LED lights to help you capture clear reliable footage up to 10 feet in pitch darkness.

GPS

Experience enhanced situational awareness with the integrated GPS feature on our cutting-edge body cam. Designed to provide precise location data during recording, this feature allows you to accurately track and document your movements in the field.

Password Protection

Introducing the password protection feature on our cutting-edge body cam, an essential tool for ensuring the utmost security and confidentiality in your law enforcement operations.

WIFI

Easily view, download, and share your footage straight from the body cam to your smart phone via WIFI connection.

Pre-Recording

This feature allows the body camera to record the footage prior to and post pressing the video recording button.

Long Battery Life

Includes a 3.8V 2650mA battery capable of recording up to 10 hours for continuous recording.

IP67 Rating

IP67 water proof protects against even the most extreme and harsh weather conditions.
