

Cyclone O2

HEPA 13 Mini Car Air Purifier

The Cyclone O2 is a powerful air purifier equipped with a HEPA 13 activated carbon filter that uses turbo cyclone technology to keep the air around you smelling clean from odor and smoke. Take this sleek and lightweight air purifier to wherever you're headed, in your car, office, or at the library. Powering on with low noise levels, so you won't disturb those around you. Equipped with intelligent sensors to detect the current air quality, green reading as good air quality and red as bad. Equipped with a essential oil slot to drip in your favorite essential oils. Start breathing in fresh and clean air.

Cleaner Air with Turbo Cyclone Technology

Clean the air around you from 99.99% of dust, pollen, smoke, odors, and pet dander. Equipped with the cylindrical 360° air intake and HEPA 13 activated carbon filter so you can start breathing clean air wherever you are.

Air Quality Sensor

Equipped with intelligent sensors to detect the current air quality. Green for good air quality, blue for poor air quality, and red for bad air quality.

Essential Oil Diffuser

GPS logging has become a handy feature to have, it allows you to view the speed and the routes that you have driven.

Sleek & Lightweight Design

The O2 air purifier weighs 0.5lbs so it's portable and sleek to take with you anywhere. It can power on horizontally or vertically, which ever position fitting your needs.

Low Noise Levels (37-48db Full Speed)

Grab and go with the O2 to take in your car, library, office, and many other quiet spaces without disturbing those around you.
