

Orbit D200

2K Quad HD Dash Cam

The GekoGear Small Form 2K Quad HD Dash Cam offers discreet and reliable car surveillance without the distraction of a big screen. This compact device seamlessly integrates into your vehicle, capturing crisp 2K Quad HD video to document your journeys with clarity. Its compact design ensures minimal visual impact on your windshield while still providing essential features such as loop recording, G-sensor functionality for automatic incident detection, and a wide-angle lens for comprehensive coverage. With easy installation and intuitive operation, this small form dash cam focuses on functionality, reliability, and simplicity to ensure you have a dependable eyewitness on the road without unnecessary distractions.

Quad HD 2K

Records in 2K Quad HD resolution. This will smoothly capture clear video in fast moving scenes.

1.5" Display

This sleek device seamlessly combines a modest form factor with a user-friendly display that avoids any distractions of a big screen.

G-Sensor for Emergency File Saving

The G-sensor is a gravity sensor that will sense any collision, swerve, or hard braking, and automatically lock the current video so it cannot be loop recorded over.

Supports 128Gb, 32GB MicroSD Card

a 32GB microSD card is included in the package, so you'll be set to install in your car and start recording. This device supports up to 128GB of external storage, around 5 hours of recording at 1080P.
